

# Utility Billing

## 2021 Water Usage Relief Request Form

A request for usage relief must be submitted within 60 calendar days following the due date of the contested water bill. Once your request is received in our office, it will be considered for approval.

In order to be eligible, the total usage being disputed must exceed the third inverted block usage and exceed 150 percent of the average usage during comparable periods in each of the two preceding years. The adjusted usage will be calculated utilizing the first, second, and third inverted block rate structure in effect at the time of the billing period. **If the usage was due to a leak, the leak must be repaired.**

Only one adjustment may be granted during a five-year period. **It is the customer's responsibility to deactivate automatic payment (if applicable) while a usage relief request is pending.**
